CONTENTS

NUMBER 1/2, JANUARY/FEBRUARY 2003

Brief Review

1 Gender differences in the regulation of vascular tone
J Thompson and RA Khalil

16 Intracerebral microdialysis: 30 years as a tool for the neuroscientist
JA Bourne

Original Articles

25 Survival, haemodynamics and cardiac remodelling follow up in mice after myocardial infarction
S Pons, P Fornes, AA Hagege, D Heudes, J-F Giudicelli and C Richer

32 Renal function in adult rats subjected to prenatal dexamethasone
JPC Martins, JC Monteiro and ADO Paixão

38 Antihyperglycaemic effect of *Cassia auriculata* in experimental diabetes and its effects on key metabolic enzymes involved in carbohydrate metabolism
M Latha and L Pari

44 Effect of *Undaria pinnatifida* (Wakame) on the development of cerebrovascular diseases in stroke-prone spontaneously hypertensive rats
K Ikeda, A Kitamura, H Machida, M Watanabe, H Negishi, J Hiraoka and T Nakano

49 Restoration of arterial baroreflex function contributes to organ protection in spontaneously hypertensive rats treated with long-term hydrochlorothiazide mixture
Z-A Lu, H-H Xie, L-P Xu, A-F Yin, C-Y Miao and D-F Su

55 Effect of 6-hydroxydopamine on gluconeogenesis in the rat renal cortex
C Cojocel and MS Thomson

60 Effects of second-generation histamine H_1 receptor antagonists on the active avoidance response in rats
M Nishiga, Y Fujii, M Konishi, MA Hossen and C Kamei

64 Effects of polarizing solution on glucose uptake of rat oxygenated or hypoxic ventricular myocytes
R Carbó, P Nava and V Guarner

72 Angiotensin-converting enzyme inhibition in adult hypertensive rats: A stereological study of renal filtration surface area
HJ Dunstan, TA Briscoe, JF Bertram, CI Johnston and MJ Black

77 Endurance training adaptations modulate the redox–force relationship of rat isolated slow-twitch skeletal muscles
DR Plant, P Gregorevic, SA Warmington, DA Williams and GS Lynch

82 Cardiovascular reflex responses after intrathecal ω-conotoxins or dexmedetomidine in the rabbit
DW Blake, CE Wright, DA Scott and JA Angus

88 Green tea catechins evoke a phasic contraction in rat aorta via H_2O_2-mediated, multiple-signalling pathways
J-Z Shen, X-F Zheng, E-Q Wei and C-Y Kwan

96 RNA interference may be more potent than antisense RNA in human cancer cell lines
Y Aoki, DP Cioca, H Oidaira, J Kamiya and K Kiyosawa

103 Extracellular Ca^{2+} is obligatory for ouabain-induced potentiation of cardiac basal energy expenditure
S-J Guild, M-L Ward, PJ Cooper, PJ Hanley and DS Loiselle

110 Cardiac mitochondrial complex activity is enhanced by heat shock proteins
IA Sammut and JC Harrison

116 **Commentary**

117 **Book Review**

NUMBER 3, MARCH 2003

Brief Review

119 The renal medullary interstitium: Focus on osmotic hypertonicity
J Sadowski and L Dobrowolski

Original Articles

127 Comparison of the *in vitro* neuromuscular activity of venom from three Australian snakes (*Hoplocephalus stephensi, Austrelaps superbus* and *Notechis scutatus*): Efficacy of tiger snake antivenom
WC Hodgson, CO Eriksson, PF Alewood and BG Fry

133 Inhibition of nuclear translocation of transcription factor nuclear factor-κ B induces FAS- as well as tumour necrosis factor-κ-mediated apoptosis through downregulation of a conserved family of inhibitor of apoptosis 1
T Imanishi, T Hano, S Takarada and I Nishio

140 Effects of five commonly used glucocorticoids on haemangioma *in vitro*
Q Hasan, ST Tan, B Xu and PF Davis

145 Pyruvate-dependent preconditioning and cardioprotection in murine myocardium
A Flood, BD Hack and JP Headrick

153 Disposition kinetics of ketotifen from liposomal dry powder for inhalation in rat lung
M Joshi and A Misra

157 Modulatory effect of *Coccinia indica* on aortic collagen in streptozotocin-induced diabetic rats
S Venkateswaran, L Pari, L Suguna and G Chandrakasan

164 Synergism between β_2-adrenoceptor agonists and subtype-selective α_{1A}-adrenoceptor antagonists in the tocolytic effect on pregnant rat uterus *in vitro*
A Mihályi, R Gáspár, D Csonka and G Falkay

168 Upregulation of muscarinic receptors by long-term nitric oxide inhibition in the rat ileum
AAO Bricola, SA Teixeira, IMS De Luca, MN Muscara, FMF Abdala, CS Porto, A Zanesco, E Antunes and G De Nucci

174 Adenosine inhibits N-type calcium channels at the rat neuromuscular junction
AD Schwartz, CL Whitacre, Y Lin and DF Wilson

178 Restoration of osmotically inhibited twitch force in rat cardiac trabeculae: Role of Na^+–H^+ exchange
JRD Cropper, I Erac and DS Loiselle

185 Relationship between anti-oxidant activities and doxorubicin-induced lipid peroxidation in P388 tumour cells and heart and liver in mice
Q-Y Liu and BKH Tan

189 Ketanserin stabilizes blood pressure in conscious spontaneously hypertensive rats
C-Y Miao, H-H Xie, H Yu, Z-X Chu and D-F Su

194 Membrane-bound and releasable nucleotidase activities: Differences in canine mesenteric artery and vein
J Bobalova and VN Mutafova-Yambolieva

Short Communication

203 Effect of intrathoracic injection sodium hyaluronic acid on the prevention of pleural thickening in excess fluid of tuberculous thoracic cavity
A Zhou, L Guo and L Tang

NUMBER 4, APRIL 2003

Brief Review

207 Cardiovascular and renal phenotyping of genetically modified mice: A challenge for traditional physiology
SM Fitzgerald, L Gan, A Wickman and G Bergstrom

Original Articles

217 Low-affinity neurotrophin receptor with targeted mutation of exon 3 is capable of mediting the death of axotomized neurons
SS Murray, PF Bartlett, EC Lopes, EJ Coulson, U Greferath and SS Cheema

223 Reduced effect of caffeine on twitch contraction of oesophageal striated muscle from stroke-prone spontaneously hypertensive rats
F Sekiguchi, K Kawata, K Shimamura and S Sunano

232 Role of the sarcoplasmic reticulum in altered action potential and contraction of myopathic human and hamster ventricle
J Wei, H-C Liu, F-Y Lee, M-S Lee, C-Y Huang, H-P Pan and C-I Lin

242 Nucleotides modulate renal ischaemia–reperfusion injury by different effects on nitric oxide and superoxide
J López-Martí, A Sola, F Pi, V Alfaro, A Marco and G Hotter

249 Effects of hypochlorite and hydrogen peroxide on cardiac autonomic receptors and vascular endothelial function
C Sand, SLM Peters, M Pfaffendorf and PA van Zwieten

254 Deficient prepulse inhibition of acoustic startle in Hooded-Wistar rats compared with Sprague-Dawley rats
M van den Buuse

262 Depressor effect induced by dipeptide, Val-Tyr, in hypertensive transgenic mice is due, in part, to the suppression of human circulating renin–angiotensin system
T Matsui, A Hayashi, K Tamaya, K Matsumoto, T Kawasaki, K Murakami and K-I Kimoto

265 Long-term measurement of cerebral blood flow and metabolism in a rat chronic hypoperfusion model
T Otori, T Katsumata, H Muramatsu, F Kashiwagi, Y Katayama and A Terashi

273 The $p^{42/44}$ mitogen-activated protein kinase inhibitor PD 98059, but not U 0126, increases a K^+ current in cardiomyocytes
F Aimond, J Fauconnier, D Donadille and G Vassort

278 Endothelin ET_A receptor antagonism does not attenuate angiotensin II-induced cardiac hypertrophy *in vivo* in rats
HR De Smet, MF Menadue, JR Oliver and PA Phillips

284 Effects of dietary *Angelica keiskei* on lipid metabolism in stroke-prone spontaneously hypertensive rats
H Ogawa, S Nakashima and K Baba

289 Oxidized low-density lipoprotein sensitizes human vascular smooth muscle cells to Fas (CD95)-mediated apoptosis
S Takarada, T Imanishi, T Hano and I Nishio

295 Effects of taurine on serum cholesterol levels and development of atherosclerosis in spontaneously hyperlipidaemic mice
Y Matsushima, T Sekine, Y Kondo, T Sakurai, K Kameo, M Tachibana and S Murakami

300 **Book Review**

301 **Letters to the Editor**

303 **Obituary**

NUMBER 5/6, MAY/JUNE 2003

Brief Review

307 Molecular basis of opioid dependence: Role of signal regulation by G-proteins
PH Tso and YH Wong

Original Articles

317 Cardiovascular status following combined angiotensin-converting enzyme and AT_1 receptor inhibition in conscious spontaneously hypertensive rats
LM Duke, JRA Paull and RE Widdop

324 Impact of extracellular matrix and strain on proliferation of bovine airway smooth muscle
JB Bonacci, T Harris and AG Stewart

329 Purinoceptor-mediated contractility of the perfused uterine vasculature of the guinea-pig: Influence of oestradiol and pregnancy
JM Haynes, JN Pennefather and B Sikorski

336 Effect of *Centella asiatica* on cognition and oxidative stress in an intracerebroventricular streptozotocin model of Alzheimer's disease in rats
MH Veerendra Kumar and YK Gupta

343 Pressure-independent enhancement of cardiac hypertrophy in atrial natriuretic peptide-deficient mice
JA Feng, G Perry, T Mori, T Hayashi, S Oparil and Y-F Chen

350 Myocardial adenosine does not correlate with the protection mediated by ischaemic or pharmacological preconditioning in rat heart
E Vasara, I Katharou and A Lazou

357 Role of copper in the relaxant action of *S*-nitrosothiols in the rat anococcygeus muscle
CW Ng, AT Najbar-Kaszkiel and CG Li

362 Apoptosis is involved in the cardiac damage induced by sinoaortic denervation in rats
X Tao, S-H Zhang, Z-X Chu and D-F Su

369 Haemodynamic action of B-type natriuretic peptide substantially outlasts its plasma half-life in conscious dogs
CJ Thomas and RL Woods

376 Placental endothelial nitric oxide synthase localization and expression in normal human pregnancy and pre-eclampsia
SJ Orange, D Painter, J Horvath, B Yu, R Trent and A Hennessy

382 Effects of mild aerobic physical exercise on membrane fluidity of erythrocytes in essential hypertension
K Tsuda, A Yoshikawa, K Kimura and I Nishio

387 Magnolol protects against cerebral ischaemic injury of rat heatstroke
CP Chang, YC Hsu and MT Lin

393 Effects of an endogenous nitric oxide synthase inhibitor on phorbol myristate acid-induced acute lung injury in rats
HI Lin, SJ Chu, D Wang, HI Chen and K Hsu

399 Evaluation of *Withania somnifera* in a middle cerebral artery occlusion model of stroke in rats
G Chaudhary, U Sharma, NR Jagannathan and YK Gupta

405 Improvement of vascular function by chronic administration of a cyclo-oxygenase inhibitor in cholesterol-fed rabbits
S Srisawat, L Phivthong-ngam, S Unchern, U Chantharaksri, P Govitrapong and Y Sanvarinda

413 Function of renal angiotensin AT_2 receptors is not enhanced in Lyon hypertensive rats
KL Liu, M Lo, D Banzone and J Sassard

419 Changes in autonomic activity and baroreflex sensitivity with the hypertension process and age in rats
R Nagai, S Nagata, F Fukuya, J Higaki, H Rakugi and T Ogihara

426 Role of mitochondrial K_{ATP} channels and protein kinase C in ischaemic preconditioning
Y Uchiyama, H Otani, M Wakeno, T Okada, T Uchiyama, T Sumida, M Kido, H Imamura, S Nakao and K Shingu

A1 **Abstracts of the Annual Scientific Meeting of the Australian Atherosclerosis Society (AAS) and the Joint Symposium of the AAS and Australian Vascular Biology Society at the Australian Health and Medical Research Congress**

NUMBER 7, JULY 2003

Brief Review

437 Extra-adrenal production of corticosteroids
E Davies and SM MacKenzie

Original Articles

446 Insulin resistance modifies plasma fatty acid distribution and decreases cardiac tolerance to *in vivo* ischaemia/reperfusion in rats
S Morel, C Berthonneche, S Tanguy, M-C Toufektsian, T Foulon, M de Lorgeril, J de Leiris and F Boucher

452 Effects of reserpine on nerve stimulation-induced constrictions in canine isolated splenic artery
X-P Yang and S Chiba

457 Wf-536 inhibits metastatic invasion by enhancing the host cell barrier and inhibiting tumour cell motility
M Nakajima, K-I Katayama, I Tamechika, K Hayashi, Y Amano, M Uehata, H Goto and T Kondo

464 Exaggerated response to restraint stress in rats congenic for the chromosome 1 blood pressure quantitative trait locus
ZH Cui, K Ikeda, K Kawakami, T Gonda, T Nabika and J Masuda

470 Dietary mushroom (*Pleurotus ostreatus*) ameliorates atherogenic lipid in hypercholesterolaemic rats
S Hossain, M Hashimoto, EK Choudhury, N Alam, S Hussain, M Hasan, SK Choudhury and I Mahmud

476 Role of angiotensin II, sympathetic stimulation and salt in the development of structural vascular changes in rat kidney
G Simon, M Jäckel and G Illyes

482 Beneficial effect of hyperbaric oxygen pre-treatment on lipopolysaccharide-induced shock in rats
A Pedoto, J Nandi, Z-j Yang, J Wang, G Bosco, A Oler, TS Hakim and EM Camporesi

489 Effects of ovariectomy and 17β-oestradiol replacement on $[Ca^{2+}]_i$ in female rat cardiac myocytes
CL Curl, IR Wendt, BJ Canny and G Kotsanas

495 Drugs acting at the $GABA_A$ receptor attenuate ethanol-induced gastric mucosal damage *in vitro*
RA Najim and HK Saaed

Short Communications

501 Effect of denuded endothelial cells in arginine amidase activity released from rabbit arteries
T Naito, R Ishii-Nozawa, K Miyazaki, K-I Shimokawa, Y Matsuda and K Takeuchi

504 Acute and chronic effects of dinner with alcoholic beverages on nitric oxide metabolites in healthy men
A Sierksma, MS van der Gaag, DE Grobbee and HFJ Hendriks

Special Article

507 Pilot study examining the effect of cholesterol lowering on platelet nitric oxide responsiveness and arterial stiffness in subjects with isolated mild hypercholesterolaemia
JM Stepien, RM Prideaux, SR Willoughby, YY Chirkov and JD Horowitz

513 **Letters to Editor**

A31 **Abstracts of the 24th Annual Scientific Meeting of the High Blood Pressure Research Council of Australia Inc.**

NUMBER 8, AUGUST 2003

Original Articles
517 Cardiac hypertrophy: A matter of translation
RD Hannan, A Jenkins, AK Jenkins and Y Brandenburger

Original Articles
528 Effect of nitroglycerine in poplitea preparations from patients with peripheral occlusive arteriophathy precontracted with KCl or 5-hydroxytryptamine
A Ortega, M Avellanal, G Espana, A Flores and A Aleixandre

532 Hypocholesterolaemic effects of an ethanol precipitate of Kabosu juice in stroke-prone spontaneously hypertensive rats fed a cholesterol-free diet
H Ogawa and S Mochizuki

537 Biochemical and morphological characterization of spontaneously hypertensive hyperlipidaemic rats
T Kumai, S Oonuma, Y Kitaoka, M Tadokoro and S Kobayashi

545 Protective effect of coadministered superoxide dismutase and catalase against stress-induced gastric mucosal lesions
Y Ohta and K Nishida

551 Effects of chronic hypobaric hypoxia on contractile properties of rat sternohyoid and diaphragm muscles
R El-Khoury, KD O'Halloran and A Bradford

Short Communication
555 Effects of preweaning doxazosin treatment on adult pressure in the spontaneously hypertensive rat
EI Boesen, TV Lewis, MM Kett and WP Anderson

Festschrift for Professor Colin Gibbs
558 Introduction
I Wendt

559 Membranes as metabolic pacemakers
PL Else and AJ Hulbert

565 Energy cost of contraction in rat urinary bladder smooth muscle during anoxia
IR Wendt and RJ Paul

570 Relationship between isometric force and myofibrillar MgATPase at short sarcomere length in skeletal and cardiac muscle and its relevance to the concept of activation heat
DG Stephenson

576 Force-matching errors after eccentric exercise attributed to muscle soreness
U Proske, NS Weerakkody, P Percival, DL Morgan, JE Gregory and BJ Canny

580 Cardiac Energetics: From E_{max} to pressure–volume area
H Suga

586 Species-independent metabolic response to an increase of $[Ca^{2+}]_i$ in quiescent cardiac muscle
M-L Ward, PJ Cooper, PJ Hanley and DS Loiselle

590 On being the right size: Heart design, mitochondrial efficiency and lifespan potential
GP Dobson

598 Cardiac energetics: Sense and nonsense
CL Gibbs

NUMBER 9, SEPTEMBER 2002

Brief Review
605 Nitric oxide, human diseases and the herbal products that affect the nitric oxide signalling pathway
FI Achike and C-Y Kwan

Original Articles
616 Osmosensitive properties of rapid and slow delayed rectifier K^+ currents in guinea-pig heart cells
T Ogura, H Matsuda, T Shibamoto and S Imanishi

623 Regulation of $^{86}Rb^+$ ion transport across polarized human colonocytes by bis-phenolic compounds
RW Mason, T Simpson-Small and L Hopp

627 Neutralization of proANP (1–30) exacerbates hypertension in the spontaneously hypertensive rat
JR Dietz, DL Vesely, WR Gower, Jr, CS Landon, SJ Lee and SJ Nazian

632 Human tachykinin NK_2 receptor: A comparative study of the colon and urinary bladder
FJ Warner, CR Miller and E Burcher

640 Choline potentiates the pressor response evoked by glycyl-glutamine or naloxone in haemorrhaged rats
MS Gürün, WR Millington and IH Ulus

643 Ostrogen improves glucose metabolism and insulin signal transduction in HepG2 cells
P Xie, M-L Liu, Y-P Gu, J Lu, X Xu, W-M Zeng and H-P Song

649 P2Y receptor-mediated enhancement of permeation requires Ca^{2+} signalling in vascular endothelial cells
N Tanaka, K Kawasaki, N Nejime, Y Kubota, K Takahashi, M Hasimoto, M Kunitomo and K Shinozuka

653 Approaches for introducing peptides into intact and functional arteriolar smooth muscle: Manipulation of protein kinase-based signalling
K Richards, MJ Davis, SJ Potocnik, TV Murphy, NB Bishara, MAS Rajanayagam, IA Darby and MA Hill

659 Intermittent hypobaric hypoxia increases the ability of neutrophils to generate superoxide anion in humans
Y Hitomi, M Miyamura, S Mori, K Suzuki, T Kizaki, C Itoh, K Murakami, S Haga and H Ohno

665 Oxidized low-density lipoprotein inhibits vascular endothelial growth factor-induced endothelial progenitor cell differentiation
T Imanishi, T Hano, Y Matsuo and I Nishio

671 Effects of exposure to cigarette smoke at different dose levels on extensor digitorum longus muscle fibres in Wistar-Kyoto and spontaneously hypertensive rats
T Nakatani, T Nakashima, T Kita and A Ishihara

678 Purinergic and adrenergic cotransmission in canine isolated and perfused gastroepiploic arteries
K Tanaka, X-P Yang and S Chiba

684 Combined pharmacological preconditioning with a G protein-coupled receptor agonist, a mitochondrial K_{ATP} channel opener and a nitric oxide donor mimics ischaemic preconditioning
H Otani, T Okada, H Fujiwara, T Uchiyama, T Sumida, M Kido and H Imamura

694 Effect of ATP on Ca^{2+} uptake in the presence of high glucose in renal proximal tubule cells
HJ Han, SH Park, YJ Lee, JC Lee and JH Lee

702 Significance of endothelin on volume homeostasis in obese Zucker rats
O Wongmekiat and EJ Johns

Short Communication

709 Diethylenetriamine nitric oxide adduct relaxes precontracted mouse tracheal smooth muscle
CF Lam, RS Lan, PV van Heerden, KF Ilett and PJ Henry

NUMBER 10, OCTOBER 2003

Brief Review

713 What we don't know about the structure of ryanodine receptor calcium release channels
AF Dulhunty and P Pouliquin

724 Regulation of axonal growth and guidance by the neurotrophin family of neurotrophic factors
LN Gillespie

Original Articles

734 Loperamide increases glucose utilization in streptozotocin-induced diabetic rats
TF Tzeng, IM Liu, TY Lai, CC Tsai, WC Chang and JT Cheng

739 Spironolactone prevents cardiac collagen proliferation after myocardial infarction in rats
JG Mill, MdaC Milanez, MM de Resende, MdaGS Gomes and CM Leite

745 Protective effects of α-tocopherol and mannitol in both circulatory shock and cerebral ischaemia injury in rat heatstroke
KC Niu, KC Lin, CY Yang and MT Lin

752 Changes in glycated haemoglobin levels in diabetic rats measured with an automatic affinity HPLC
Y Nagisa, K Kato, K Watanabe, H Murakoshi, H Odaka, K Yoshikawa and Y Sugiyama

759 Effect of oral ketorolac and gender on human cold pressor pain tolerance
P Compton, VC Charuvastra and W Ling

764 Effects of tachykinins and 5-hydroxytryptamine on intestinal secretion
IM Coupar and JL DiIulio

769 Diet-induced obesity and cardiovascular regulation in C57BL/6J mice
TD Williams, JB Chambers, LM Roberts, RP Henderson and JM Overton

779 Hydrochlorothiazide abolishes the anti-atherosclerotic effect of quinapril
FAH Fonseca, SSM Ihara, MCO Izar, EP Silva, N Kasinski, IEL Lopes, LESA Pinto, TB Paiva, S Tufik, AAV de Paola and ACC Carvalho

786 Different remodelling against left ventricular overload between diabetic and non-diabetic haemodialysis patients
M Nishimura, T Hashimoto, H Kobayashi, T Fukukda, K Okino, N Yamamoto, N Nakamura, T Yoshikawa, H Takahashi and T Ono

793 Effect of tetramethylpyrazine on potassium channels to lower calcium concentration on cultured aortic smooth muscle cells
K-L Wong, P Chan, W-c Huang, T-L Yang, I-M Liu, T-Y Lai, C-c Tsai and J-T Cheng

799 Investigation of the effects of peppermint oil and valerian on rat liver and cultured human liver cells
LT Vo, D Chan and RG King

805 **Book Review**

NUMBER 11, NOVEMBER 2003

Brief Review

807 Effects of calcitriol on the immune system: New possibilities in the treatment of glomerulonephritis
V Panichi, M Migliori, D Taccola, C Consani and L Giovannini

Original Articles

812 Lipoxygenase and cyclo-oxygenase products in the control of regional kidney blood flow in rabbits
JJ Oliver, GA Eppel, NW Rajapakse and RG Evans

820 Effect of cross-fostering on blood pressure and renal function in the New Zealand genetically hypertensive rat
N Ashton, P Kelly and JM Ledingham

827 Effects of losartan on pressure overload induced cardiac gene expression profiling in rats
J Li, P Li, X Feng, Z Li, R Hou, C Han and Y Zhang

ASCEPT 2002

833 Science and physicianly practice: Are they compatible?
JP Seale

836 *In silico* insights: Chemical and structural characteristics associated with uridine diphosphate-glucuronosyltransferase substrate selectivity
PA Smith, MJ Sorich, RA McKinnon and JO Miners

841 Experimental therapeutics of Parkinson's disease
JM Henderson

845 Oxidative metabolism of tamoxifen to Z-4-hydroxy-tamoxifen by cytochrome P450 isoforms: An appraisal of *in vitro* studies
JK Coller

849 Novel isoforms of NADPH oxidase in vascular physiology and pathophysiology
SHM Bengtsson, LM Gulluyan, GJ Dusting and GR Drummond

855 Cerebral vascular effects of reactive oxygen species: Recent evidence for a role of NADPH-oxidase
TM Paravicini and CG Sobey

860 Redox-dependent signalling by angiotensin II and vascular remodelling in hypertension
RM Touyz, F Tabet and EL Schiffrin

Third International Mouse Symposium

867 Mouse isolated perfused heart: Characteristics and cautions
FJ Sutherland, MJ Shattock, KE Baker and DJ Hearse

879 Responses to ischaemia and reperfusion in the mouse isolated perfused heart and the phenomenon of 'contractile cycling'
FJ Sutherland, KE Baker, MJ Shattock and DJ Hearse

885 Neurocardiovascular regulation in mice: Experimental approaches and novel findings
X Ma, FM Abboud and MW Chapleau

894 Activin and TR3 orphan receptor: Two 'atheroprotective' genes as evidenced in dedicated mouse models
MA Engelse, EK Arkenbout, H Pannekoek and CJM de Vries

900 Stem cell-derived angiogenic/vasculogenic cells: Possible therapies for tissue repair and tissue engineering
JJ Zwaginga and P Doevendans

909 **Book Review**

NUMBER 12, DECEMBER 2003

Brief Review

911 Role of angiotensin AT_1 and AT_2 receptors in cardiac hypertrophy and cardiac remodelling
Y-C Zhu, Y-Z Zhu, N Lu, M-J Wang, Y-X Wang and T Yao

Original Articles

919 Phytosterol additives increase blood pressure and promote stroke onset in salt-loaded stroke-prone spontaneously hypertensive rats
H Ogawa, K Yamamoto, T Kamisako and T Meguro

925 Morphological evidence of reinnervation of the baroreceptive regions in sinoaortic-denervated rats
G-J Cai, L Li, H-H Xie, J-J Xu, C-Y Miao and D-F Su

930 Cosegregation analysis of natriuretic peptide genes and blood pressure in the spontaneously hypertensive rat
P Ye and MJ West

937 Cellular mechanism of pituitary adenylate cyclase-activating polypeptide-induced atrial tachyarrhythmia in canine isolated arterially perfused right atria
M Hirose and S Chiba

943 Cyclic GMP protein kinase activity is reduced in thyroxine-induced hypertrophic cardiac myocytes
L Yan, Q Zhang, PM Scholz and HR Weiss

951 Vascular non-endothelial nitric oxide induced by swimming exercise stress in rats
AB Chies, FMA Corrêa, CR de Andrade, AAM Rose-e-Silva, FC Pereira and AM de Oliveira

958 Direct vascular effects of HR780, a novel 3-hydroxy-3-methylglutaryl coenzyme A reductase inhibitor
T Wajima, S Makita and K Oshima

Short Communications

963 Effect of salt and water intake on epithelial sodium channel mRNA abundance in the kidney of salt-sensitive sabra rats
C Nicco, L Bankir and N Bouby

966 Analgesic duration and kinetics of liposomal bupivacaine after subcutaneous injection in mice
GJ Grant, B Piskoun and M Bansinath

969 **Referee List**

971 **Author Index**

975 **Subject Index**
